February Fun Facts

Friday February 2nd is Groundhog Day
On this day, people eagerly await the emergence of a groundhog from its burrow. According to folklore, if the groundhog sees its shadow, there will be six more weeks of winter; if not, spring will come early!

Over time, the length of February kept changing. At one point, it had as little as 23 days. The length of February was finalized when Julius Caesar remade the Roman calendar and assigned the month 28 days and 29 days. In 713 B.C., February was officially added to the Roman calendar.

The odds of being born on February 29th are about 1 in 1,461. Those born on a leap day can be called a “leaper” or “leapling.”

Febbruary?

Februarey?

Of all the words you can misspell, February is one of the most misspelled words in the English language. Even the White House has misprinted the word “February” before in a press release!

Ron & Brenda's Retirement Party

We want to thank all of you for the kind retirement reception as we finish this chapter and embark on new adventures together. It has been an honor to serve all of the residents and work side by side with an incredible group of co-workers. We have been truly blessed to be a part of your journey here at Abbey Park. You will not be forgotten!
